

# CORVA

ONE SYSTEM.  
ENDLESS CONFIGURATIONS.

# MODERN. SOFT. TIMELESS.

Corva is a next-generation workplace ecosystem that seamlessly integrates technology, privacy, and storage, designed to evolve with the changing needs of the modern workplace.

# ENGINEERED TO EVOLVE.

Corva is a modular workplace ecosystem designed to evolve alongside changing teams, spaces, and needs, delivering a future-ready foundation through reconfigurability.

# MODERN RECTANGLE. SOFTENED GEOMETRY.

Corva's refined rectangular profile balances structural performance with a softer architectural presence. Soft corners, clean transitions, and refined detailing create a system designed to feel timeless across a wide range of workplace environments.

# PERFORMANCE THAT ADAPTS.

## FLEXFOOT

Interchangeable C-Foot and T-Foot design available in 22" and 28" depths, providing flexibility to suit different workspace layouts and aesthetic preferences (2-leg base only).

## DUAL ANTI-COLLISION

Integrated dual anti-collision system helps detect obstacles during movement, protecting both users and surrounding objects.

## 90 SECOND INSTALL

Engineered for speed with under-2-minute assembly, featuring a tool-less design up to the foot attachment for faster, simpler installation.

## CONFIGURABLE PLATFORM

Designed as a true system, allowing 2-leg, 3-leg, and benching configurations to be converted between one another using shared components and minimal additional parts.

Corva Bench, PET Divider, E5 Monitor Arm, Reya Power, Fokus Task Light, Collective Storage, Iku Task Chair

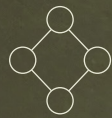

Corva Hi, Corva Power Beam, PET Divider, E5 Monitor Arm w/Laptop Holder, Reya Power, Fokus Task Light, Collective Storage, Iku Task Chair

# BUILT FOR A BETTER WORKPLACE. DESIGNED TO LAST.

Corva is built with longevity in mind – minimizing waste, maximizing performance, and supporting a more sustainable future for work.

## ADAPTABLE BY DESIGN

Reconfigure, expand, and reuse components to extend the life of your workplace.

## BUILT TO LAST

Engineered for durability and backed by a warranty that supports long-term performance.

## REDUCING WASTE

Modular components minimize waste and support circularity over time.
