

# WHY CHOOSE HAT COLLECTIVE HEALTHCARE?

In the world of healthcare, lasting impressions are made at point-of-care (POC). These touchpoints should enable high-quality treatment, allowing the focus to remain on the patient. Instead of healthcare adapting to the technology, the technology should adapt to worker and patient needs.

At HAT Collective Healthcare, we are on a quest to empower individualization in the workplace through our collection of flexible, ergonomic solutions for the healthcare market.

## COMFORT

ERGONOMIC ■ INTUITIVE ■ EASY TO USE

Strenuous, non-ergonomic work environments contribute to musculo-skeletal disorders and higher rates of employee dissatisfaction. User-centric, ergonomically designed POC products can drastically improve caregiver comfort, making these solutions essential for healthcare facilities.

## CONTROL

HEIGHT ADJUSTABILITY ■ ARTICULATION ■ MOBILITY

When it comes to POC products, one size does not fit all. The ability to adjust and personalize equipment gives caregivers control of their environment, better enabling their important work. Thoughtfully designed POC products provide intuitive customization.

## CONFIDENCE

DURABILITY ■ CLEANABILITY ■ LONG BATTERY LIFE

In a healthcare environment, dependability is everything. The average healthcare worker spends about half of a 12-hour shift using technology. Caregivers need to know that they can rely on their workstations to perform—and have confidence that they are built to last.

## PARTNER BENEFITS

HAT Collective Healthcare, a division of HAT Collective, has partnered with global healthcare manufacturers for decades. Now, we've launched our very own innovative product line, helping caregivers overcome the unique challenges they face every day.

- HAT Collective Healthcare provides an enhanced footprint within existing accounts, increasing revenue opportunities.
- We have a team of experts working for you, helping you offer a total solution for your customers.
- Our brand is committed to quality and affordability, with an emphasis on customer service and exceptional levels of support for you.

MEDICAL CARTS · WALL-MOUNTS · MONITOR ARMS · SIT-STAND WORKSTATIONS · ACCESSORIES

## WHERE DOES HAT HEALTHCARE FIT?

### Patient Room

Avoid clutter and access patient information with ease, never letting equipment get in the way of exceptional patient care.

### Exam Room

Whether mounted to a desk, wall or cart, HAT Collective Healthcare's ergonomic monitor arms maximize performance and enhance workflow.

### Caregiver's Station

HAT Collective Healthcare's sit-stand workstations are designed with the flexibility and durability that 24/7 care environments can depend on.

### Registration

Height adjustable wall mounts offer comfort and convenience for every user.

### In-Between Spaces

Tight spaces require innovative solutions. Our diverse selection of wall-mounted products provides easy access to medical records and pop-up surfaces for prep. When you're done, quickly stow your work area to leave hallways clear and open.
