

EVO[®]

MONITOR ARMS

A SLEEK SPACE-SAVER.

Evo is ergonomics, space savings, and clever design all packed into one slim monitor arm. One-touch adjustment and an efficient cable management system keep things extra simple. The Evo Dual monitor mount provides intuitive function and dual rotation for easy, ergonomic viewing of both screens.

It's easier than ever to mount a flat panel monitor with this arm's modern design. The Evo Dual monitor mount provides intuitive function and dual rotation for easy, ergonomic viewing of both screens.

FEATURES

- **Balanced:** Tension adjustment at each joint allows for seamless counterbalance.
- **Responsive:** One-touch monitor adjustment.
- **Quick-Install:** Durable VESA plate(s) reduces installation time.
- **Flexible:** Easily rotate flat panel monitor for portrait or landscape viewing.
- **Compatible:** VESA-monitor compatible – 75mm & 100mm VESA adapter(s) included.
