Iku, tier 3: **\$1,300**

Reya Power, surface module hardwired to
powerstrip: **\$500**

Our Elle Collection elegantly accommodates both individual and group workspaces. This Parsons-style table offers unmatched stability when compared to other height-adjustable models and is available in four surface-mounting options for a tailored design and fit. To complete this 360 Workspace, we added the 7500 monitor arm, which features our spring-assisted HD tilter for easy adjustment of even the largest screens. Beautifully colored as part of the Enhanced Design Services custom color abilities.

7500: The 7500 desk monitor mount features our patented HD tilter, a spring-assisted pivot for the monitor which makes adjustments remarkably easy, even with larger screens. Other features include internal cable management and unique joint bearings for ease of movement.

Reya Power: With a soft, convex surface Reya is our new desktop power solution, available in several options. Reya kicks off our new rounded, organic edge design language for HAT Collective.
