Reya Power, surface module hardwired to powerstrip: **\$500**

Following months of research, iteration and collaboration with our product design consultants at Gensler, we are proud to introduce the new Fiellø. Manufactured at our European headquarters in Denmark, Fiellø is created with an authentic, personal touch that incorporates technology, design and functionality. Fiellø's minimalist approach expresses itself in clean lines, cylindrical legs and low-profile feet that all speak to the intent of the architectural experience.

Ivy: In a world of personalized workstations and height-adjustable desks, organizing power sources can get complicated. Introducing Ivy, a brilliant power and data distribution solution. Ivy is made from rich woods, supple felt, and sleek steel in an inspiring design to enhance your office.

E2 Connex: Easy to install, easy to change up, and easy to accessorize, the Connex monitor arm helps to build a complete, individualized workspace.

Reya Power: With a soft, convex surface Reya is our new desktop power solution, available in several options.
